Front of card

Back of card

For use with Collar Insignias

FIG 1

1. Locate the device and corresponding letters on the hole chart.
2. Place the Pin-iT Card on the shirt collar, ensuring that the Collar Insignia Slot is pointing to the tip of the collar and that the dotted line on the card is lined up with the tip of the collar. See FIG 1.
3. Make sure that the dotted line that is intersecting the Collar Insignia slot is touching the lower edge and front edge of the collar. See FIG 1.
4. Place the device into the slot labeled "Collar Insignias" on the front of the Pin-iT Card. See FIG 2.
5. Pin on the Insignia.

Dotted line pointed to the tip of collar

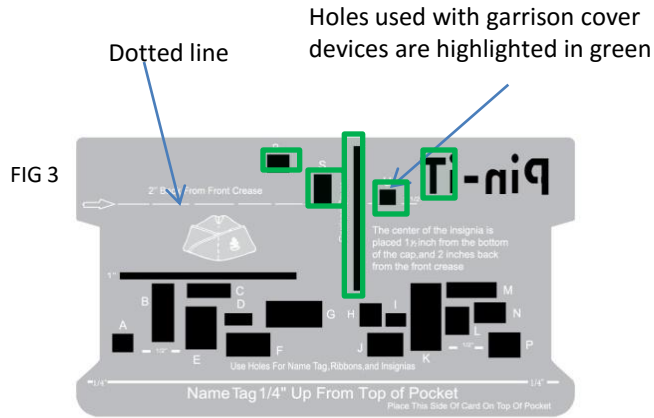

Collar Insignia Slot.

FIG 2

Intersecting line touches lower and front edge

For use with Garrison Cover

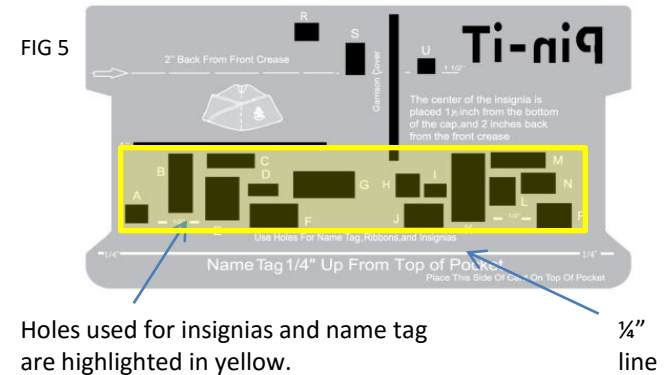

1. Locate the device and corresponding letters on the hole chart.
2. Place the Pin-iT Card on the Garrison Cover so that the left side of the card is even with the front crease of the cover. In addition, the bottom of the Pn-iT Card should be even with the bottom of the cover. See FIG 4.
3. Place the device into corresponding holes on Pin-iT Card. See FIG 3.
4. Ensure the middle of your device is perpendicular with the dotted line associated with the Garrison Cover Slot.
5. Pin on the device.

Officers will add their metal collar grade-rank insignia on the wearer's right. Just flip over the cover and Pin-iT card, and repeat the process.

FIG 4

For use with Breast Insignias and Name Tags.

1. Locate the designated insignia and corresponding letters on the hole chart.
2. Place the insignia in the corresponding holes on the back of the Pin-iT Card. See FIG 5.
1. Ensure that the bottom of the insignia is resting on the $\frac{1}{4}$ " line. See FIG 6 and FIG 7.
2. Pin on the insignia.
